Although I prefer to keep things simple and easy with flash sheets, I am open to suggestions and customizations to your liking! Please note that this is a document that will be updated regularly and some designs and prices may change.

OTHER NOTES

Healed results are dependent upon a variety of factors including lifestyle, health conditions, following proper aftercare, etc.

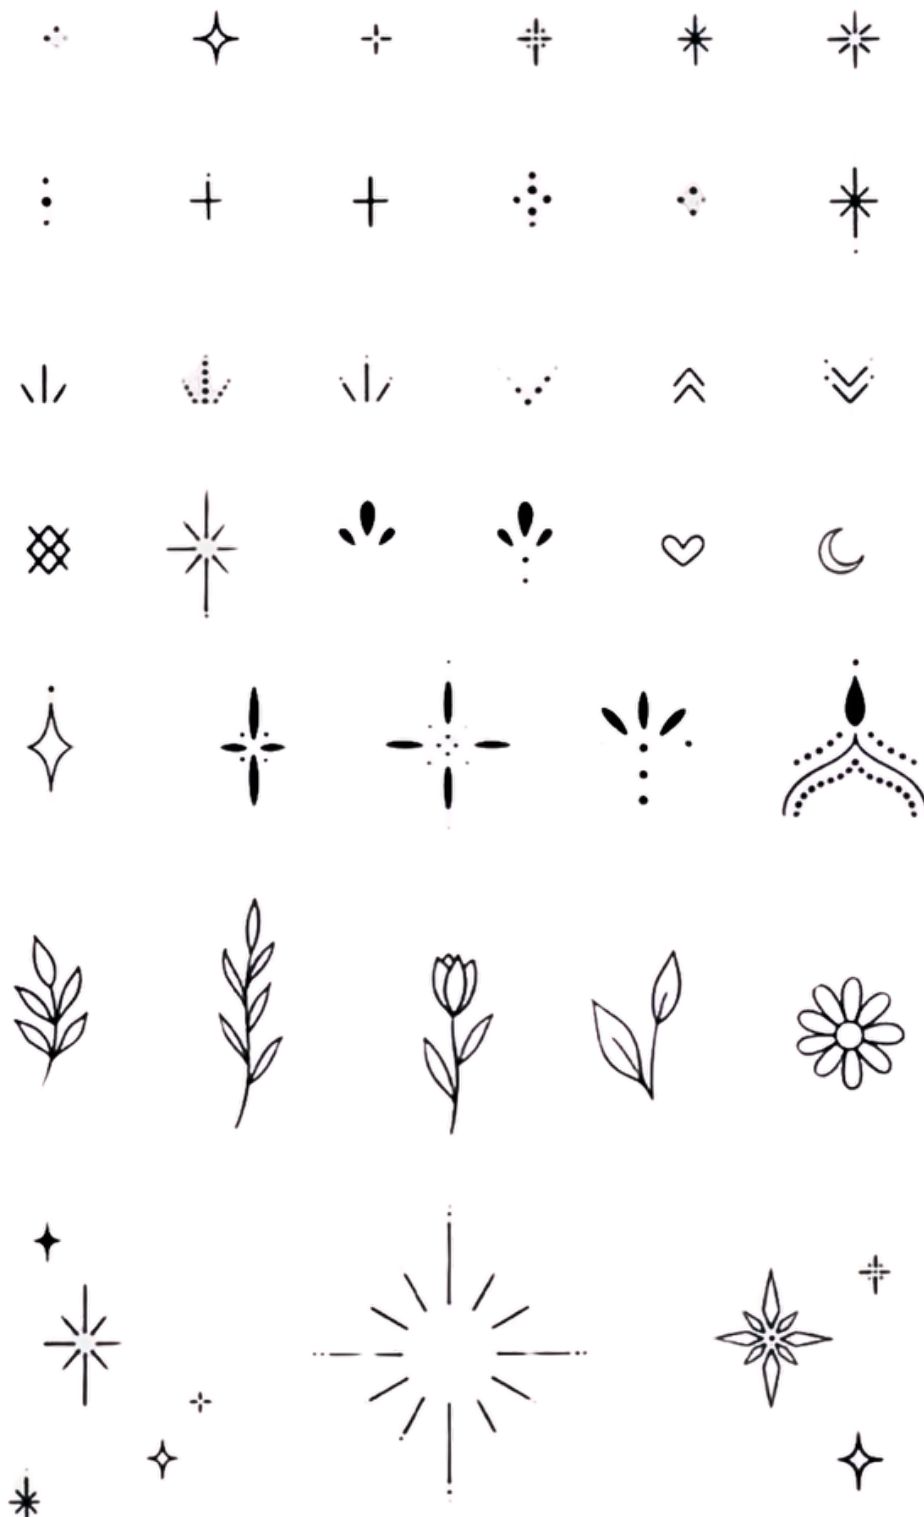

At the end of the day - you are responsible for your tattoo as soon as the service is completed. I provide all clients with aftercare information, but always encourage you to contact your primary physician if there are concerns.

Sweet little somethings for your
Hands & Fingers

All designs on this page are \$75

Please note: Hand and finger tattoos tend to fade quickly and can distort over time. Many artists choose not to tattoo these locations due to this. It is up to you to continue the upkeep required for these tattoos.

Numbers and Dates

\$85 for all Angel Numbers (111/222) and \$110 for all dates (01.01.0101)

All Angel numbers have their own meanings and you may connect with any or all. Maybe you always look at the clock at 11:11 or 12:34 and you see these numbers on your takeout orders or prices you pay, etc. It can give you a sign you're on the correct path, or things will be okay from your spiritual guides.

As a starting point, you may calculate your own Angel number by adding the numbers of your birthdate down to a single number.

For example :

If your birthdate is 05-31-1991 you will simply add $0+5+3+1+1+9+9+1$. Here you'll get 29. As we need a single digit, you will continue by adding $2+9$ to make 11. Again, you will add to get a single digit: $1+1=2$. The Angel number for this birthday will be 2 (222)

But what do these numbers even mean? Take what resonates and leave the rest, but in general, most associate the numbers with the following meanings.

- 111: Intuition
- 222: Alignment
- 333: Support
- 444: Protection
- 555: Change
- 777: Luck
- 888: Balance
- 999: Release
